Dynamic Systems and Applications

Volume 23, 2014

CONTENTS

A. K. Tripathy, S. Panigrahi, and K. Srilakshmi **1**
Generalized Emden-Fowler-Neutral Type Equations with Properties A and B

Abdelaziz Soufyane and Mounir Afilal **15**
Frequency Domain Approach for the Stabilization of Timoshenko-Type System of Thermoelasticity of Type III

A. Varsei and E. Dastranj **31**
An Approach to Integral W. R. T. Measure Through Random Sums

L. Yu, Q. Zhang, and G. Yin **39**
Asset Allocation for Regime-Switching Market Models under Partial Observation

E. Thandapani, S. Padmavathi, and S. Pinelas **63**
Oscillation Results for Odd-Order Nonlinear Neutral Differential Equations of Mixed Type

H. T. Liu **75**
Quenching Rates for Parabolic Problems Due to a Concentrated Nonlinear Source

S. H. Saker and John R. Graef **83**
A New Class of Dynamic Inequalities of Hardy's Type on Time Scales

S. B. Khan and N. U. Ahmed **101**
Inverse Problems for Compressible Flow Of Newtonian Fluid

Yuji Liu **113**
Existence and Uniqueness of Solutions of Three-Point Boundary Value Problems for Singular Fractional Differential Equations

M. Benchohra, J. Henderson, Rodica Luca, and A. Ouahab **133**
Boundary Data Smoothness for Solutions of Second Order Ordinary Differential Equations with Integral Boundary Conditions

James S. W. Wong and Lingju Kong **145**
Solvability of Second Order Nonlinear Multi-point Boundary Value Problems

Nick Misenheimer and Nickolai Kosmatov **155**
A Non-Local Problem for a Differential Equation of Fractional Order

Jian-Ping Sun, Ya-Zhuo Chen, and Xiao-Li Zhang **163**
Monotone Positive Solution of Third-Order Boundary Value Problem with Integral Boundary Conditions

Taher S. Hassan **179**
Asymptotic Behavior of Solutions of Second Order Nonlinear Dynamic Equations

Xianbin Liu and Yu Tian **189**
On Positive Solutions of Sturm-Liouville Boundary-Value Problem for Fourth-Order Impulsive Differential Equations

Jun Ji and Bo Yang **203**
Positivity of the Green Function for a Four Point Fourth Order Focal Boundary Value Problem

Tangan Gao, Haiyan Wang, and Mengnien Wu **211**
Nonnegative Solutions of a Class of Systems of Algebraic Equations

Jia Baoguo, Lynn Erbe, and Raziye Mert **221**
Comparison Theorems for Even Order Dynamic Equations on Time Scales

Muhammad N. Islam and Youssef N. Raffoul **235**
Periodic and Asymptotically Periodic Solutions in Coupled Nonlinear Systems of Volterra Integro-Differential Equations

Qingkai Kong and Thomas E. St. George **245**
Existence of Nodal Solutions of Boundary Value Problems with Two Multi-Point Boundary Conditions

Ferhan M. Atici and Fang Wu **265**
Existence of Solutions for Nonlinear Fractional Difference Equations with Initial Conditions

Weigao Ge, Huihui Pang, and Yu Tian **277**
Existence of Solutions to Mixed Boundary Value Problems via Variational Method

Ercan Tunc and John R. Graef **289**
Oscillation Results for Second Order Neutral Dynamic Equations with Distributed Deviating Arguments

Lingli Xie **305**
A Note on the Coexistence of Homoclinic Orbit and Saddle Focus Point for Some Typical Chaotic Systems

Shapour Heidarkhani **317**
Multiple Solutions for a Nonlinear Perturbed Fractional Boundary Value Problem

Zachary Denton **333**
Generalized Extension of the Quasilinearization Method for Riemann-Liouville Fractional Differential Equations

Smita Pati, Seshadev Padhi, and E. Thandapani **351**
Multiple Periodic Solutions for Some Difference Equations Subjected to Allee Effects

Seshadev Padhi, Julio G. Dix, and Smita Pati **375**
Global Attractivity of Solutions of First-Order Delay Differential Equations with Applications in Population Dynamics

Y. Kao, P. Zhang, L. Shi, and X. Sun **391**
Robust Exponential Stability of Stochastic Reaction-Diffusion Recurrent Neural Networks with Markovian Jumping Parameters and Mode-Dependent Delays

J. R. L. Webb **415**
Estimates of Eigenvalues of Linear Operators Associated with Nonlinear Boundary Value Problems

Zuzana Dosla, Mauro Marini, and Serena Matucci **431**
Positive Solutions of Nonlocal Continuous Second Order BVP's

Kunquan Lan and Xiaojing Yang **447**
Strongly Positive Operators and u_o -Positive Operators

J. Fialho and F. Minhos **453**
Multiplicity and Location Results for Second Order Functional Boundary Value Problems

Xueyan Liu **465**
Nonlocal Boundary Value Problems with Even Gaps in Boundary Conditions for Third Order Differential Equations

J. D. Ramirez **479**
Generalized Monotone Iterative Method for Caputo Fractional Differential Equations with Anti-Periodic Boundary Conditions

Alfredo F. Janson, Bibi T. Juman, and Jeffrey W. Lyons **493**
The Connection Between Variational Equations and Solutions of Second Order Nonlocal Integral Boundary Value Problems

Grey M. Ballard and John V. Baxley **505**
Asymptotic Behavior of the Eigenvalues of Toeplitz Integral Operators Associated with the Hankel Transform

Liancheng Wang and Xiaoqin P. Wu **531**
Zero-Hopf Bifurcation Analysis for a Krawiec-Szydlowski Model of Business Cycles with Two Delays

Eric R. Kaufmann **561**
A Kolmogorov Predator-Prey System on a Time Scale

Chuanxi Qian **575**
Global Attractivity in a Nonlinear Difference Equation and Applications to Discrete Population Models

Shan-shan Zhao and Hong-rui Sun **591**
Positive Solution for Multi-Points BVPs of Higher Order Fractional Differential Equations

Christopher S. Goodrich **601**
An Existence Result for Systems of Second-Order Boundary Value Problems with Nonlinear Boundary Conditions

Ross A. Chiquet and Logan Perry **619**
Chaos in a Two-Stage Discrete Model with Strong Nonlinearities

Wisdom S. Avusuglo, Wenying Feng, and Kenzu Abdella **635**
A Generalization of Epidemiological Models under Rational Expectations

Douglas R. Anderson **653**
Hyers Ulam Stability of Higher-Order Cauchy-Euler Dynamic Equations on Time Scales

Bo Zhang **665**
Contraction Mapping and Stability in an Integro-differential Equation of Nonconvolution Type

Irma Szimjanovszki, Janos Karsai, and Eva V. P. Racz **677**
On the Asymptotic Behavior of Spatially Implicit Models of Competition of Two Species with Overcolonization

Lingju Kong, Qingkai Kong, and Min Wang **691**
Existence and Uniqueness of Solutions for a Fractional Boundary Value Problem with a Separated Boundary Condition

Sarah S. King and Jeffrey T. Neugebauer **699**
Smallest Eigenvalues, Extremal Points, and Positive Solutions of a Fourth Order Three Point Boundary Value Problem

Alberto Cabada and Gennaro Infante **715**
Positive Solutions of a Nonlocal Caputo Fractional BVP

Donna S. Stutson and Aghalaya S. Vatsala **723**
Riemann Liouville and Caputo Fractional Differential and Integral Inequalities

Said R. Grace, Elvan Akin, and Can M. Dikmen **735**
On the Oscillation of Second Order Nonlinear Neutral Dynamic Equations with Distributed Deviating Arguments on Time-scales

Content **749**

Author Index **753**
