

Neural, Parallel & Scientific Computations

Volume 22, 2014

CONTENTS

Dong Han and Fugee Tsung The Stability, Bullwhip Effect and Optimization of a Horizontal Collaboration Supply Chain Network	1
S. Dhawan, S. Arora, and S. Kumar Approximation of Advection-Diffusion Phenomenon with Wavelets	45
P. Prakash, J. J. Nieto, N. Uthirasamy, and G. Sudha Priya Solving Fuzzy Boundary Value Problem by Differential Transform Method	59
Kouki Mohamed, Abbas Mehdi, and Mami Abdelkader Rational Arnoldi & Adaptive Order Rational Arnoldi for Switched Linear Systems	75
Olusegun M. Otunuga and Gangaram S. Ladde Second Order State and Covariance Estimation for Nonlinear Stochastic Systems	89
Srimanta Pal and Pijush Kumar Koley Quantum K-Means Clustering	127
Reza Habibi Change Point Analysis in Linear Regression Models	149
P. N. Botsaris and P. M. Bekakos Computational Mechanical Design and Modelling of an Impact Attenuator for a Competition Vehicle	159
N. Begashaw and N. G. Medhin Practical Deterministic Approaches to Stochastic Programming Problems	183
Debaldev Jana and G. P. Samanta Role of Multiple Delays in Ratio-Dependent Prey-Predator System with Prey Harvesting Under Stochastic Environment	205
Ali Akgül A New Method for Approximate Solutions of Fractional Order Boundary Value Problems	223

P. K. Pandey A Nonstandard Variable Step Length Method for the Solution of First Order Initial Value Problems in ODEs	239
T. N. Binh, V. N. Phat, and K. Ratchagit Novel Criteria for Global Stabilization of Discrete-Time Neural Networks with Interval Time-Varying Delays	249
Dhruba R. Adhikari Existence Results for Nonlinear Perturbations of Linear Maximal Monotone Operators	261
Ghanshyam Bhatt Operators Associated with Sequences in Hilbert Spaces	277
Nicholas Clark and Hem Raj Joshi Highly Active Antiretroviral Therapy: Modeling and Optimizing HIV Treatment	289
F. Drullion and S. G. Sajjadi Interaction of Wind with Surface Water Waves	303
R. Etikyala, S. Gottlich, A. Klar, and S. Tiwari A Macroscopic Model for Pedestrian Flow: Comparisons with Experimental Results of Pedestrian Flow in Corridors and T-Junctions	315
Santosh Ghimire The Law of the Iterated Logarithm in Various Contexts	331
C. T. Jayasundara, Manoj Khanal, and Deepak Adhikary Application of Discrete Element Method in Grinding Mills and Composite Particle Breakage	341
Ramesh Karki Sobolev Gradient & Application to Nonlinear Pseudo-Differential Equations	359
Navjot Kaur, Mini Ghosh, and S. S. Bhatia Mathematical Analysis to Study the Role of Mass-Media in the Transmission Dynamics of Infectious Diseases	375
Shree Ram Khadka and Frank Werner Upper and Lower Bounds for the Total Product Rate Variation Problem	389
Harihar Khanal, David Autrique, and Vasilios Alexiades Computational Models for Nanosecond Laser Ablation	399
Curtis R. Menyuk Self-Similarity, Integrability, and Accordions in Transient Stimulated Raman Scattering	411

Vinod Mishra and Harpreet Kaur Haar Wavelet Approach for Solving Nonlinear Differential and Integral Equations	421
Chinta Mani Pokhrel DCP Property of Convex Combinations of De La Vallee Poussin Kernels	431
Urmila Pyakurel and Tanka Nath Dhamala Earliest Arrival Contraflow Model for Evacuation Planning	441
Kedar Nath Uprety and Stefan C. Mancas Variable Viscosity Condition in the Modeling of a Slider Bearing	451
Srimanta Pal Skeletonization of Binary Image in Immunecomputing Paradigm and its Analysis	461
P. M. Bekakos, M. P. Bekakos, I. Z. Milovanovic, E. I. Milovanovic, and M. K. Stojcev One Modification of Euclidian Algorithm	485
Zvi Retchkiman Konigsberg The Modeling and Stability Problem for a Communication Network System	497
C. S. Ryoo Analytic Continuation of the Second Kind Euler Polynomials and the Euler Zeta Function	509
Mohmed H. M. Khabir and Kailash C. Patidar Comparison of Some Numerical Methods for Option Pricing Problems	521
C. Y. Chan and P. Tragoonsirisak Critical Source and Critical Width for a Parabolic Quenching Problem in an Infinite Strip	539
P. K. Pandey Accurate Variable Step Exponential Finite Difference Method for Numerical Solution of Two Point Boundary Value Problems	547
Charalampos S. Kouzinopoulos and Konstantinos G. Margaritis Multiple Pattern Matching: Survey and Experimental Results	563
A. Tassopoulos and E. Leriou A New Multidimensional Model Of Ethics Educational Impact on Welfare	595
Mostafa I. Soliman Processing Encrypted Scalar/vector Data on Unified Datapath	609
E. M. Karanikolaou and M. P. Bekakos Performance Scalability and Energy Consumption on a Shared Memory Platform	623

K. Vadivukkarasi and R. Kumar	639
Neural Network Based Indoor Localization for Wireless Sensor Network	
Content	655
Author Index	659
